Dear Diana,

I am completing my trip to Armenia. Next week I'll bring with me requests from top level hepe to moscow leaders to include Leninakan into Global Event in June. Then there will be created an organizing Committee to adress top-sponsors for this Cultural Summit. I ask you to find a quality translator of 4-pages description of the Event to give it to those from organizing Committee (we are inviting locally top people, you'll see later). I gave lectures to Yerevan University and they are addressing them they hope all students in those countries who are helping Armenia. It is so strange that I survived. See you very soon.

With warm memories and Love,

Joseph
